DC100

High Rise Stand Up Desk Converter with Built-In Shelf

High Rise Collection™

The DC100 High Rise Stand Up Desk Converter is a simple solution to a common workplace problem: too much sitting. Studies show that sitting for prolonged periods of time is detrimental to your health. The DC100 transforms any sit down desk into a stand up desk. The 28" wide by 23" deep surface is raised 12.5" for ergonomic placement of laptop computer, keyboard, mouse, monitor or papers. Optional height extenders add an additional 2" for taller people. Sleek wood construction and a durable laminate coating provide years of use with a modern style.

The rear portion of the desk is tapered to fit corner cubicles and notched to help manage cables. The lower shelf stores books, papers, or accessories. Works well as a stand for printers, all-in-ones, scanners, televisions or fax machines.

1 year warranty.
