Adding Up to a Great Start!

Victor Technology donates \$2,600 worth of Sharp and Victor brand scientific calculators to Kids In Need Foundation for the 2017-2018 school year.

BOLINGBROOK, IL - As September approaches, many families, teachers and school districts are tasked with Back to School shopping to prepare for the upcoming school year. For some, the cost of school supplies can be a burden.

The dedicated people at Kids In Need Foundation understand this trying situation. Through their robust network of donors, distribution centers, employees and volunteers, Kids In Need Foundation supported 5.4 million students and more than 150,000 teachers in 2016 with the school supplies those students and teachers needed to have a successful school year.

Victor Technology is proud to partner with Kids In Need Foundation for the 2017-2018 school year with a donation of over 200 Sharp and Victor branded scientific calculators worth \$2,600. The donated calculators range from basic scientific calculators needed for algebra classes up to advanced scientific calculators for courses such as calculus, physics and engineering.

Want to help students in your community? Kids In Need Foundation accepts donations from the public. Learn more on their site: www.kinf.org

About Victor Technology:
