DC200

High Rise Adjustable Stand Up Desk Converter with Precision Fit Lever

High Rise Collection™

The DC200 High Rise Adjustable Stand Up Desk Converter is a simple solution to a common workplace problem: too much sitting. Studies show that sitting for prolonged periods of time is detrimental to your health. The DC200 transforms any sit down desk into a stand up desk. The 28" wide by 23" deep surface is raised 12" to 16.75" for ergonomic placement of laptop computer, keyboard, mouse, monitor or papers. Gas strut design allows easy custom height adjustment with the push of a lever.

Sleek wood construction and a durable laminate coating provide years of use with a modern style. The rear portion of the desk is tapered to fit corner cubicles and notched to help manage cables. Heavy steel base prevents tipping.

1 year warranty.
