

# VICTOR® DC300

## Manual Single Monitor Standing Desk

The DC300 High Rise Height Adjustable Manual Single Monitor Standing Desk Workstation is a simple solution to a common workplace problem: too much sitting.

- Transforms any sit down desk into a sitting OR standing desk.
- The 28" wide by 23" deep work surface raises up to 15.5" above the desktop.
- Gas strut design allows adjustable desk and computer monitor height with the twist of a knob.
- Allows for ergonomic placement of monitor, keyboard, mouse, phone and papers while standing.
- Monitor holder is height adjustable within a 12.5" range.
- Durable laminate coating on worksurface is easy to clean.
- Sits on top of current desk or table without any clamps or attachments. Pads on base of unit prevent scratching to desktop surfaces.
- Heavy steel base prevents tipping.
