

VICTOR[®] DCX110

Height Adjustable Laptop Desk

The Victor DCX110 is specifically designed for laptop users that want the versatility and ease of a transport-able standing desk. Perfect for use at home or in the office, this standing desk gets you on your feet, while helping you improve your mental focus and alleviating back and neck pain.

- Perfect for laptop users (or single monitor) looking to increase productivity and energy with a standing desk.
- Work surface measures 28.75" wide by 18.5" deep, providing plenty of space for laptop or single monitor users.
- Raises from 2.6" at lowest point up to 16" above the table/desk.
- Easily adjust from sitting to standing in one smooth motion with gas spring piston. Squeeze lever to raise and lower desk converter.
- Perfect for dorm rooms, bedrooms, and small offices.
- Great for college and high school students trying to integrate a standing desk solution into their room.
- Ready to use out of the box. Does not require any assembly. Raises and lowers in seconds.
- Made of strong, scratch-resistant melamine with a steel frame
- Portable and easy to store.
